

## Project Structure

Date	31 October 2022
Team ID	PNT2022TMID04987
Project Name	Developing A Flight Prediction Model Using Machine Learning

## Project Structure

The project folder contains the following folders

- ❖ flightdata.csv is the dataset used for training our model.
- ❖ flight delay Flight\_Delay.ipynb is the python file where the ML algorithm is applied to the dataset for testing and training. Finally, the model is saved for future use.
- ❖ flight.pkl is the saved model used in the flask to predict the output instantly for the given inputs.
- ❖ To build a Flask Application, save HTML pages in the templates folder and a python script app.py for server-side scripting.
